

HIGH DEFINITION VEHICLE INSURANCE

Technology meets insurance.

Reduce your risk and your premiums.
HDVI brings telematics and software together with insurance to deliver a next-generation solution.

Our platform arms fleets with an end-to-end solution that helps them save money, mitigate risk, and increase operational efficiencies.

HDVI's best-in-class insurance comes with flexible payment terms, broad coverage, enhanced coverage forms, and never any hidden fees.

We layer technology on the foundation of insurance.

Data

We unlock the power of your driving data, fueling unparalleled cost reduction, risk protection, and operational efficiencies.

Insurance Carrier

Our Insurance Partner has the rating you need to keep shippers happy and trucks loaded. Spinnaker is A- Rated by AM Best.

Claims Services

Our best in class claims partner has operated for over 50 years, has deep expertise in trucking claims, and is trusted by mega fleets. Serving more than 4,800 organizations, Gallagher Basset delivers demonstrably superior outcomes.

Hardware

We partner with the leading ELD and camera vendors in the industry and provide hardware free of charge.

Software

Our integrated software includes:

- Fleet safety module with active driver analysis and alerts
- Fleet compliance module with DOT inspection tracking and file management
- Driver app with leaderboard, coaching, and rewards

Reinsurer

Our reinsurer is one of the largest in the world and has an AM Best rating of A+ (Superior) with a stable outlook.
