

## Engage drivers to control risk

Driver Rewards gives you a new way to promote, recognize, and reward safe driving

The HDVI Driver Rewards platform and Driver+ mobile app are **designed to improve safe driving habits** by allowing drivers access to review their driving data and encouraging healthy competition among drivers

The program can help reduce the risks associated with unsafe driving, improve driver morale, and improve driver retention. Easy to administer, it makes adding Driver Rewards to your existing recognition and reward program fast and easy.

### How Driver Rewards works

#### Fund your Driver Rewards account

HDVI makes it easy to fund your Driver Rewards account at your desired level of reward.

#### Track the leaderboards

HDVI's leaderboards are updated throughout the month. Drivers are ranked based on safety events triggered, including speeding and harsh events.

#### Distribute rewards to winning drivers

You determine how to reward your team. Our team will work with you to configure the best reward structure for your fleet.

#### Winning drivers redeem rewards

Using the HDVI Driver+ mobile app, drivers are able to track their progress on the leaderboards and redeem rewards they win for gift cards from dozens of major retailers.
