

# Drive safe, reduce premiums

## Shift into lower premiums with HDVI

For the first time ever, commercial trucking has a dynamically priced insurance solution. HDVI's Shift™ reduces premiums for safe driving.

## Now you're in the driver's seat

We start with insurance that goes broader and deeper than the traditional offering. With integrated telematics and cutting-edge software, Shift shows fleets how to drive more safely and, as a result, reduce premiums within their policy term.

### Competitive rates, great coverage

HDVI's competitively priced insurance is already **a superior offering** – with broad coverage, flexible payment terms, enhanced coverage forms, and **never any hidden fees**.

### Integrated telematics with a suite of tools

**Our tools empower you** to set goals, benchmark key safety metrics, and engage with drivers effortlessly – enabling you to **be in better control of your business**.

### Save money, mitigate risk

**HDVI automatically rewards safe driving** with reduced premiums – giving you the power to reduce your monthly auto liability premium by **up to 20%**.

# Drive your premiums down with HDVI Shift™

**We start with a competitively priced, quality insurance product**

*and by sharing past telematics data when we quote the policy, fleets may see discounts from day 1.*

**We connect with your ELD and dash cam solutions**

*and give immediate feedback on how to lower your premiums within the policy period.*

**We give you all the tools and support you need**

*to increase your safety and decrease your monthly premiums.*

## How Shift works

Fleets can earn discounts every month for safe performance.
